Bills.
Amendments to Bills.
Insertion of words to take the place of words struck out—If on division the "Noes" were declared to be in the majority it would be necessary to insert other words in order to make sense, *June 13*, 656.
Verbal Amendments on Third Reading — The difficulty arose from a date having been inserted in the wrong place, and without the Amendment the Clause would have been nonsensical and ungrammatical, *June 13*, 612.

Speaker—Rt. Hon. W. C. Gully—*cont.*

Raising the Question before the Official Communication reached the Speaker—That course was very undesirable, much might depend on what was the Court and what was the Offence, and it was desirable that the House should have all the facts before it— If the letter arrived by the evening post it should be communicated to the House, *June 19*, 1122.
